

## WHY PAINT HAS BECOME SO DEAR

Failure of Flax Crop in U. S. Has Sent Prices Bounding Upward

## OIL ALSO MUCH AFFECTED

At Fort William a Dollar More a Bushel Is Paid for the Flax Seed

Montreal, Que., Sept. 21.—"Never in the history of the trade have the wholesale paint manufacturers been called upon to face such a serious problem as now confronts them in the shortage of their principal raw stuff, turpentine," was the statement made in The Toronto Star today in an interview with Mr. C. C. Ballentyne, managing director of the Canadian Division of the Sherwin-Williams Paint and Varnish company. The chief cause of the scarcity and corresponding high prices of paint was, Mr. Ballentyne explained, not so much due to the failure of the flax seed harvest as it was to the total inadequacy of the crop to meet the enormously increased demand for the commodity under discussion.

Under normal conditions, Mr. Ballentyne continued, the United States produces annually about 27,000,000 bushels of flax. Of this amount 16,000,000 or 17,000,000 was kept for home consumption while the balance was available for export. Up to last year the United States had been able to raise sufficient flax seed to take care of its own needs, but this year, owing to the extreme drought in the west, the crop had dropped in volume to 17,000,000 bushels. In order to make up for the deficiency the United States had bought up the available Canadian supply as well as large quantities from other flax-producing countries, as a result of which those countries were now suffering.

At Fort William the price of flax today was \$2.53 a bushel, which was exactly \$1 a bushel more than it was a year ago. The foreign crops, too, Mr. Ballentyne pointed out, had not been anywhere near sufficient to meet local demand, and prices for linseed oil and turpentine were soaring in other countries, too just as they were in the States and Canada.

"On the first of February, this year, we were compelled to raise the price of our varnishes ten cents a gallon, and today 20 cents has been added to the mean price of last year, making an increase of about 25 per cent. for this year altogether."

## PARKIN IN HANDS OF POLICE AGAIN

A. M. Parkin, a former resident of Calgary, Alberta, was arrested today in St. Paul by detectives in the central office, charged with defrauding Isaac Cole of St. Paul of \$480 by forging a note.

He is locked up at the central station. Parkin passed a devious career in the police courts of the twin cities. Last May he was arrested on a charge of defrauding the Radisson Hotel in Minneapolis in more than \$200 in room rent, automobile charges and other expenses.

He received a workhouse sentence of 30 days. When he was released, he was arrested in St. Paul, but was released on his own recognizance of his promise that he would go to work and pay up what he owed. The police say he violated this pledge.

## ENGLISH EMIGRANTS TO CANADA, 146,817

That Is Total for Last Eight Months — Nearly Twenty Thousand in August

(Canadian Associated Press.) London, Sept. 21.—The nine Queen's Own officers who are suffering from typhoid fever are making satisfactory progress.

King George V. has approved J. C. Homery as French vice-consul for St. John's, Newfoundland, and A. H. Hartveit as Netherlands vice-consul at Saskatoon.

Emigrants during August to Canada totalled 19,312, making a total for the last eight months of 146,817.

## THE ROYAL TOUR TO SOUTH AFRICA

Cape Town.—With a view to maintaining the purely British and Imperial character of the forthcoming royal tour, it has been arranged that the Balmoral Castle, with their royal Highnesses the Duke and Duchess of Connaught, will make a short stay at St. Helena, in place of the brief call at Madeira, which is the practice with the South African mail-boats. The visit to St. Helena, lasting two or three days, while the vessel and its escorting cruisers coal and victual, will be of a state character. So much of the tour through South Africa as was intended for their present majesties and as has been adopted by the Duke and Duchess of Connaught and Princess Patricia will take place after the opening of the Union Parliament, a beginning being made by a journey direct to the Zambesi. It is intended to complete the Rhodesian part of the tour, including the visits to Bulawayo, the Matopos, and to Salisbury, well before the end of November, in order to avoid both the rain and the heat which are such marked features of the Rhodesian summer.

The police became suspicious of them and watched the hotel where they were stopping. Lady Brabazon eventually learned the whereabouts of her son. His companions, male and female, were arrested and placed in jail, having spent some \$2,000 of the abstracted money, while the scion of a noble house was hauled back to Florence.

The ragspickers and the women were imprisoned on charges of immorality and leading an English youth into temptation.

## BAB BOY ABSCONDS, HAD MOTHER'S CASH

Fifteen-Year-Old Son of Lady Brabazon Has a High Old Time in Italy

Florence, Sept. 21.—Society is buzzing over the extraordinary adventure of the fifteen-year-old son of Lady Brabazon, who occupies a sumptuous residence here, where she has a foremost position in society. The son coolly appropriated 20,000 lire (about \$4,000) from his mother and made off, escorted by three rag-pickers.

The four arrived at Leghorn, where they put up at the best hotel. During four days they led a hilarious life. The quartet meanwhile increased their party to the extent of four young women.

The police became suspicious of them and watched the hotel where they were stopping. Lady Brabazon eventually learned the whereabouts of her son. His companions, male and female, were arrested and placed in jail, having spent some \$2,000 of the abstracted money, while the scion of a noble house was hauled back to Florence.

The ragspickers and the women were imprisoned on charges of immorality and leading an English youth into temptation.

## JUST BE STOUT AND YOU'LL BE HAPPY

No Heavyweights Among Criminals, Drunkards or Dyspeptics, Says One of 'Em

Boston.—"Be fat and you'll be happy," says W. D. Quimby, president of the Fat Men's club of New England. "Although I am not much of a historian, I can assure you the history of fat men will point out a good many facts that would startle the people at large and the insurance companies in particular."

"You never find a fat bad man. Did you ever hear of a real fat man committing a crime? Of course you didn't for they never do it. Crimes, as a rule, are committed by men weighing between 118 and 148. Very few criminals weigh over 180, and crime by men weighing over 200 is practically unknown."

"You never see a fat man drunk. They don't get drunk. The reason is not that they can hold more liquor; they have no unnatural craving for it. And right here lies the fundamental difference between the two. The fat man digests 98 per cent. of his food. The thin man has difficulty in digesting more than 30 per cent. Dyspepsia is to be found among thin men, not fat."

## YOUNG HADLEY KNEW WHY

This story was told at Princeton the other day, while the trustees were discussing the renewal offer by William Cooper Proctor of Cincinnati to give half a million dollars to that university if the conditions to which President Wilson had objected were finally accepted. The application may be made by the reader.

"The little son of President Hadley of Yale, was playing in the bathroom the other day," said the speaker. "He had filled the tub with water and was sailing paper boats in it. By and bye he was told by his mother that he must stop because his father wanted his bath. He very reluctantly complied, and went out on the pavement. A moment later a total stranger to the entire family came along, and the boy stopped her."

"The president of Yale isn't going to take his bath today," said the youngster.

"And why not?" asked the astonished lady.

"Because," said the boy, "I've got the stopper in my pocket."—Cincinnati Times-Star.

## RULES TO GOVERN BASEBALL FANS

It is suggested that rules be passed next season which will put the ban on six classes of baseball fans:

1—The man who says, "It's an error; he got his hands on it" at a marvellous stop.

2—The chap who howls "If it out!" whenever a sacrifice is attempted.

3—The idiot who explains to his friend, "He passed him on purpose," there being two out and nobody on base.

4—The fathead who seeks to show his intimacy with the players by shouting out their first names.

5—The dotty one who howls "Don't forget to touch second!"

6—The imbecile who emits a war-whoop whenever his favorite comes to bat.

A FAST GAME  
ON OCT. FIRST

Reports State Calgary Y.M.C.A. is the Strongest Team in That City

The Eskimos worked out last night at Diamond Park. Only light work was done, and part of the time was devoted to signal drill. There will be no practices today or tomorrow but on Saturday, there will be a turn-out and there is a movement on foot to arrange a practice game with the local Y. M. C. A. for that date. If this comes off, the Eskimos will play at least 25 men during the game, in order to give every candidate for the team a thorough trial at this position.

It is now only a week until the game with the Calgary Y. M. C. A. and from reports from the south the Y's are to be the classiest team in that city.

The Tigers were very much weakened by the loss of several of their 1909 stars. Savers and Dobbie, the crack half-backs are out of the game, likewise Pierpont, the quarterback.

Doe Gibson has packed away his old mokeskin trousers, while MacMaster, who was the Tiger's strongest wing may possibly be seen in a Y. M. C. A. sweater. The retirement of these men will leave some gaping holes in the champion line-up, and it would not be a great surprise in Edmonton if the Tigers did not play the Eskimos at this season.

On the other hand the Calgary Y. M. C. A. will be strong. Art Wark captains them, and plays centre-half. Dumphy and Cornfoot, are the side halves. Eric McLean, formerly of Hillhurst, plays full-back and Davidson is at quarter. The scrimmage has a husky trio in Miller, Fullerton and Ballentyne, though Mr. Fullerton, who is a professional prize fighter, will not play against the Eskimos, if the local management has any say in the matter. Football is a strictly amateur game, which means that the underdogs, now, we find Fullerton, a prize fighter, practically assured of the return of his amateur standing.

After this dissertation on the strangeness of things in general, we shall proceed. For since the Y. M. C. A. will have Kemp, Ford, Sinclair, Stagg, Pegler, Colville and McLeod with Huntington, George, Orrick, Heald and others to fall back on.

So lovers of rugby in Edmonton are assured of a fast game here on Saturday, October 1st.

Last year, the Eskimos endeavored to have Bill Crowley, who was willing to take an affidavit that he had never received money for playing hockey, re-instated, but the Edmonton and Calgary Y. M. C. A. secretaries frowned very much on the undertaking. Now, we find Fullerton, a prize fighter, practically assured of the return of his amateur standing.

LARRY LAJOIE,  
MECHANICAL TOY

Always Does Same Thing on Ball Field—Peculiarities of the Great Baseball Clouter

Larry Lajoie has so many little habits on the ball field that he reminds one of a great big mechanical toy.

Larry starts from the bench with two bats, swings them and tosses one aside. He takes several careless wall-pops at the outfielders with his favorite stick, then walks halfway to the plate and awits his turn.

When the batter gets on or is disposed of, Larry tucks at the peak of his cap and steps forward, passing behind the catcher. With the bat tucked under one arm, he leans over and pats the other hand in the dust. Stepping forward, he draws the famous line alongside the plate with his bat. Then he pecks at the corner of the plate with his over stick, always hitting the same corner, front one on the inside. With his left hand he pulls down his cap in the back, then tucks at the peak again.

Before the pitcher delivers the ball he moves aimlessly about the right side of the plate. He swings his bat carelessly and glares at the pitcher.

With his bat on his shoulder, he will hit the ball watches the first ball foul. He will break an intended foul of his own if he took a walk at the first offering. The pitchers are wise, and cut the first one over.

Before the second ball is pitched Larry assumes his seemingly indifferent manner again. He swings his bat at his side and wipes the palm of his hand on his shirt so long that he makes the man a little nervous if he is badly needed. It seems that Larry never will get his bat up in time to hit the ball, but his average is .371.

He is the same mechanical fellow in the field, making the same circle to cover second and get back to his position. When the ball man has been retired each inning Larry makes a headline for the bench, tossing his glove into short right as he goes.

WHIT. TALKS OF  
HOCKEY TEAM

Says There is Chance of Edmonton Team Making Trip to Montreal

Fred J. Whitcroft, who is "fawneh-ing" at Wabamun and incidentally taking on bash from leading the simple life, was approached yesterday by The Capital as to the prospects for a professional team in Edmonton this winter.

"Well," said Fred, lolling back in a comfortable leather chair in the King Edward grounds, "there will be a team go east, but everything is being kept very dark at present, and I am not at liberty to divulge the names of the players."

"Where is the money coming from?" was the next question from the inquisitive reporter.

This drew one of Fred's famous winks and a mysterious look appeared upon his face. So the source of money is also one of the facts that is to be kept secret for the present.

**May Not Play Again**  
What is at present undecided whether he will don skates again or not. He has entirely recovered from the effects of his accidents last year in Renfrew, and we believe there are still a number of good games left in the well-known rover. Officers of the Renfrew club have approached him already this fall, trying to get his money back to a contract, but Fred is not likely to be holding back in order that he can lead another Edmonton Stanley Cup expedition into the promised land of hockey.

**Patrick Will Play**  
"Whit" had a letter from Frank Patrick this week, and the sterling player has practically made up his mind to sign with Renfrew for another season.

The Millionaires have already set out to corner the hockey market, and if it is merely a question of money, there seems no reason why they should not be successful. Bill O'Brian can count on nearly all his last year's hired men, with the single exception of Newry-Ladlow.

This hockey-lacrosse star, owing to his recent success as the leader of the N. L. U. champions, Les Nationals, has been elevated to the hero class in Montreal, and the grand sports demand that he be placed in command of a French-Canadian hockey team. So Newry will probably be an absentee from the Creamery City ranks.

**Few New Players**  
"There were only two young players developed last year," said Whitcroft. "They were Roberts of Ottawa, and Hyland, the dashing wing man of the Wanderers, who was the real sensation of the league race. Consequently, if there is a professional league this winter, the magnates will be compelled to sign their last year's players, and this will place the pros in a position to demand their own price."

**Renfrew All the Way.**  
Fred thinks there will be nothing to the race but Renfrew. The Wanderers "came back" last winter, but that was probably their final effort. The majority of the champions' members have been in the game for a long while, and nearly the entire team will retire this winter. The Ottawa players are also beginning to qualify for the veteran class, and there will be many changes in their 1910-11 lineup. Cobalt and Hallsbury will be dropped from the circuit, so there will be a good opening for another team in Montreal or a new team in Toronto.

This latter city would be a winner if the oft-mooted artificial ice plant were only an established fact. Under present conditions, the uncertain weather in the Queen City makes the question of a professional franchise a doubt.

**Time for a Change**  
If a team goes down from Edmonton this winter, it should be run under a different system than on the last occasion, and all the players should be got together for at least a month's practice before starting out on the quest. The inclusion of Fred and Ross at the very last minute certainly did not aid anything to Edmonton's strength last season.

**FIGHTERS ARE DEPARTING**  
Eddie Merino, who fought with Abe Attell in Calgary, has left for the States, where he has arranged a bout with Colver. Young Maxwell has left Edmonton and is not on his way East.

SEPARATE SCHOOL  
GAMES YESTERDAY

Were Held at the Fair Grounds and the Kiddies Had a Fine Time

The annual sports of the Separate schools held at the fair grounds Tuesday afternoon were well attended, and successful from every point of view. The city provided a number of special cars which ran from Third street and Syndicate Avenue, and upwards of three hundred children were carried to the grounds which were placed at the disposal of the committee by the Exhibition association. Mr. J. J. Leblanc of the Separate school staff was the official in charge and the judges were: H. M. Martin, J. T. J. Colleson, A. O'Donoghue, F. Barnes, J. H. Picard and J. Driscoll. A number of the fathers also attended and helped proceedings along.

A cup given by R. M. Martin to the boy securing the largest number of points in the afternoon was won by A. Larose. After the events were over lunch was served on the grounds by Mr. Dodge. The management felt very grateful at their success and at the generosity displayed by all who contributed or otherwise seconded their efforts.

The following were the results of the different events:

Boys' race—50 yards, ten years and under, 1st V. Shimmers, and E. Macdonald, 1st J. Czepek.

Boys' race—75 yards, over ten years and under fifteen, 1st W. Dumas, 2nd A. Tardiff, 3rd A. Lawe.

Boys' race—100 yards, over fifteen years, 1st George Larondoux.

Running broad jump—Under twelve years, 1st J. Dussault, and A. Mountfield, 2nd C. Ross.

Running broad jump—Over twelve years, 1st A. Larose, and W. Dupont, and A. Larondoux.

Hop, step and jump—Under twelve years, 1st J. Dussault, and A. Mountfield, 2nd J. P. Maloney.

Hop, step and jump—Over twelve years, 1st A. Larose, and W. Dupont, 2nd J. Dowal.

## WHY PAINT HAS BECOME SO DEAR

Failure of Flax Crop in U. S. Has Sent Prices Bounding Upward

**OIL ALSO MUCH AFFECTED**  
At Fort William a Dollar More a Bushel Is Paid for the Flax Seed

Montreal, Que., Sept. 21.—"Never in the history of the trade have the wholesale paint manufacturers been called upon to face such a serious problem as now confronts them in the shortage of their principal raw stuff, turpentine," was the statement made in The Toronto Star today, in an interview with Mr. C. C. Ballestry, managing director of the Canadian Division of the Sherwin-Williams Paint and Varnish company. The chief cause of the scarcity and corresponding high prices of paint was, Mr. Ballestry explained, not so much due to the failure of the flax seed harvest as it was to the total inadequacy of the crop to meet the enormously increased demand for the commodity under discussion.

Under normal conditions, Mr. Ballestry continued, the United States produces annually about 27,000,000 bushels of flax. Of this amount 16,000,000 or 17,000 was kept for home consumption while the balance was available for export. Up to last year the United States had been able to raise sufficient flax seed to take care of its own needs, but this year, owing to the extreme drought in the west, the crop had dropped in volume to 17,000,000 bushels. In order to make up for the deficiency the United States had bought up the available Canadian supply as well as large quantities from other flax-producing countries, as a result of which those countries were now suffering.

At Fort William the price of flax today was \$2.53 a bushel, which was exactly \$1 a bushel more than it was a year ago. The foreign crops, too, Mr. Ballestry pointed out, had not been anywhere near sufficient to meet local demand, and prices for linseed oil and turpentine were soaring in other countries, too, just as they were in the States and Canada.

"On the first of February, this year, we were compelled to raise the price of our varnishes ten cents a gallon, and today 20 cents has been added to the mean price of last year, making an increase of about 25 per cent. for this year altogether."

## PARKIN IN HANDS OF POLICE AGAIN

A. M. Parkin, a former resident of Calgary, Alberta, was arrested today in St. Paul by detectives in the central office, charged with defrauding Isaac Cole of St. Paul of \$480 by forging a note.

He is locked up at the central station. Parkin passed a devious career in the police courts of the twin cities. Last May he was arrested on a charge of defrauding the Radisson Hotel in Minneapolis in more than \$200 in room rent, automobile charges and other expenses.

He received a workhouse sentence of 30 days. When he was released, he was arrested in St. Paul, but was released on his own recognizance of his promise that he would go to work and pay up what he owed. The police say he violated this pledge.

**THE ROYAL TOUR TO SOUTH AFRICA**

Cape Town.—With a view to maintaining the purely British and Imperial character of the forthcoming royal tour, it has been arranged that the Balmoral Castle, with their royal Highnesses the Duke and Duchess of Connaught, will make a short stay at St. Helena, in place of the brief call at Madeira, which is the practice with the South African mail-boats. The visit to St. Helena, lasting two or three days, while the vessel and its escorting cruisers coal and revictual, will be of a state character. So much of the tour through South Africa as was intended for their present majesties and as has been adopted by the Duke and Duchess of Connaught and Princess Patricia will take place after the opening of the Union Parliament, a beginning being made by a journey direct to the Zambesi. It is intended to complete the Rhodesian part of the tour, including the visits to Bulawayo, the Matopos, and to Salisbury, well before the end of November, in order to avoid both the rain and the heat which are such marked features of the Rhodesian summer.

## BAB BOY ABSCONDS, HAD MOTHER'S CASH

Fifteen-Year-Old Son of Lady Brabazon Has a High Old Time in Italy

Florence, Sept. 21.—Society is buzzing over the extraordinary adventure of the fifteen-year-old son of Lady Brabazon, who occupies a sumptuous residence here, where she has a foremost position in society. The son coolly appropriated 20,000 lire (about \$4,000) from his mother and made off, escorted by three rag-pickers.

The four arrived at Leghorn, where they put up at the best hotel. During four days they led a hilarious life. The quartet meanwhile increased their party to the extent of four young women.

The police became suspicious of them and watched the hotel where they were stopping. Lady Brabazon eventually learned the whereabouts of her son. His companions, male and female, were arrested and placed in jail, having spent some \$2,000 of the abstracted money, while the scion of a noble house was hauled back to Florence.

The ragpickers and the women were imprisoned on charges of immorality and leading an English youth into temptation.

## JUST BE STOUT AND YOU'LL BE HAPPY

No Heavyweights Among Criminals, Drunkards or Dyspeptics, Says One of 'Em

Boston.—"Be fat and you'll be happy," says W. D. Quimby, president of the Fat Men's club of New England. "Although I am not much of a historian, I can assure you the history of fat men will point out a good many facts that would startle the people at large and the insurance companies in particular."

"You never find a fat bad man. Did you ever hear of a real fat man committing a crime? Of course you didn't for they never do it. Crimes, as a rule, are committed by men weighing between 118 and 128. Very few criminals weigh over 200, and crime by men weighing over 200 is practically unknown."

You never see a fat man drink. They don't get drunk. The reason is not that they can hold more liquor; they have no unnatural craving for it. And right here lies the fundamental difference between the two. The fat man digests 98 per cent. of his food. The thin man has difficulty in digesting more than 30 per cent. Dyspepsia is to be found among thin men, not fat."

## YOUNG HADLEY KNEW WHY

This story was told at Princeton the other day, while the trustees were discussing the renewal offer by William Cooper Proctor of Cincinnati to give half a million dollars to that university if the conditions to which President Wilson had objected were finally accepted. The application may be made by the reader.

"The little son of President Hadley of Yale, was playing in the bathroom the other day," said the speaker. "He had filled the tub with water and was sailing paper boats in it. By and bye he was told by his mother that he must stop because his father wanted his bath. He very reluctantly complied, and went out on the pavement. A moment later a total stranger to the entire family came along, and the boy stopped her."

"The president of Yale isn't going to take his bath today," said the youngster.

"And why not?" asked the astonished lady.

"Because," said the boy, "I've got the stopper in my pocket."—Cincinnati Times-Star.

## RULES TO GOVERN BASEBALL FANS

It is suggested that rules be passed next season which will put the fan on six classes of baseball fans.

1—The man who says, "It's an error; he got his hands on it" after a marvellous stop.

2—The chap who howls "Hit it out!" whenever a sacrifice is attempted.

3—The idiot who explains to his friend, "He passed him out purpose." "He passed him out and nobody on base."

4—The fellow who seeks to show his intimacy with the players by shouting out their first names.

5—The dotty one who howls "Don't forget to touch second!"

6—The imbecile who emits a war-hoop whenever his favorite comes to bat.

There are others, but this will suffice for a start. Here is something for the National Commission to dally with.

A FAST GAME  
ON OCT. FIRST

Reports State Calgary Y.M.C.A. is the Strongest Team in That City

The Eskimos worked out last night at Diamond Park. Only light work was done, and part of the time was devoted to signal drill. There will be no practices today or tomorrow but on Saturday, there will be a turn-out and there is a movement on foot to arrange a practice game with the local Y.M.C.A. for that date. If this comes off, the Eskimos will use at least 25 men during the game, in order to give every candidate for the team a thorough trial at his position.

It is now only a week with the game with the Calgary Y.M.C.A. and from reports from the south the Y's are to be the classiest team in that city.

The Tigers are very much weakened by the loss of several of their 1909 stars. Savers and Dobbie, the crack half-backs are out of the game, likewise Pierpont Wood, the quarterback. Doc Gibson has packed away his old muleskin trousers, while MacMaster, who was the Tiger's strongest wing may possibly be seen in a Y.M.C.A. sweater. The retirement of these men will leave some gaping holes in the champion's line-up, and it would not be a great surprise in Edmonton if the Tigers did not play the Eskimos at all this season.

On the other hand the Calgary Y.M.C.A. will be strong. Art Wark captains them and plays centre-half. Murphy and Cornfoot are the side-halves. Eric McLean, formerly of Hillhurst, plays full-back and Davidson is at quarter. The scrimmage has a husky trio in Miller, Fullerton and Ballentyne, though Mr. Fullerton, who is a professional ring fighter, will not play against the Eskimos, if the local management has any say in the matter. Football is a strictly amateur game which must be kept so, and it seems strange, here in Edmonton, to think a Y.M.C.A. has to endeavor to have a professional reinstated.

Last year, the Eskimos endeavored to have Bill Crowley, who was willing to take an affidavit that he had never received money for playing hockey, re-instated, but the Edmonton and Calgary Y.M.C.A. secretaries frowned very much on the undertaking. Now, we find Fullerton, a prize fighter, practically assumed the return of his amateur standing.

After this dissertation on the strangeness of things in general, we shall proceed. For wings, the Y.M.C.A. will have Kemp, Ford, Sinclair, Staag, Pepler, Calville and McMaster with Huntley, George, Orrick, Healey and others to fall back on.

So lovers of rugby in Edmonton are assured of a fast game here on Saturday, October 1st.

LARRY LAJOIE,  
MECHANICAL TOY

Always Does Same Thing on Ball Field—Peculiarities of the Great Baseball Clouter

Larry Lajoie has so many little habits on the ball field that he reminds one of a great big mechanical toy.

Larry starts from the bench with two bats, swings them and tosses one aside. He takes several careless winks at the atmosphere with his favorite stick, then walks halfway to the plate and swigs his turn.

When the batter gets on or is disposed of, Larry tugs at the peak of his cap and steps forward, passing behind the catcher. With the bat tucked under one arm, he leans over and puts the other hand in the dust. Stepping forward, he draws the famous line alongside the plate with his bat. Then he pecks at the corner of the plate with his swat stick, always hitting the same corner, front one on the inside. With his left hand he pulls down his cap in the back, then tugs at the peak again.

Before the pitcher delivers the ball he moves aimlessly about the right side of the plate. He swings his bat carefully and glances at the right.

With his bat on his shoulder, the big fellow watches the first ball float by. He would break an iron-rod rule of his own if he took a walk-off at the first offering. The pitchers are wise and cut the first one over.

Before the second ball is pitched Larry assumes his seemingly indifferent manner again. He swings his bat at his side and "sips the pulse" of his hand on his shirt so long that he makes the man a little nervous if a hit is badly needed. It seems that Larry never will get his bat up in time to hit the ball, but his average is .371.

He is the same mechanical fellow in the field, making the same circle to cover second and get back to his position. When the list makes a man retired except inning, Larry makes a line for the bench, tossing his glove into short right as he goes.

WHIT. TALKS OF  
HOCKEY TEAM

Says There is Chance of Edmonton Team Making Trip to Montreal

Fred J. Whitcroft, who is "fawching" at Wabamun and incidentally taking on flesh from leading the simple life, was approached yesterday by The Capital as to the prospects for a professional team in Edmonton this winter.

"Where is the money coming from?" was the next question from the inquisitive reporter.

This drew one of Fred's famous winks and a mysterious look appeared on his face. So the source of money is also one of the facts that is to be kept secret for the present.

May Not Play Again

What is at present undecided whether he will now skate again or not, it has entirely recovered from the effects of his accidents last year in Renfrew, and we believe there is still a number of good games left in the well-known rover. Officers of the Renfrew club have approached him already this fall, trying to get his monkey to a contract, but Fred is coy and may be holding back in order that he can lead another Edmonton Stanley Cup expedition into the promised land of hockey.

Patrick Will Play

"Whit" had a letter from Frank Patrick this week, and the surfing player has practically made up his mind to sign with Renfrew for another season.

The Millionaires have already set out to corner the Quebec market and if it is merely a question of money, they should be successful. Bill O'Brien can count on nearly all his last year's hired men, with the single exception of Newey Lalonde.

This hockey-lacrosse set, owing to his recent success as the leader of the N. E. U. champions, Les Nationals, has been elevated to the hero class in Montreal, and the grand sports demand that he be placed in command of a French-Canadian hockey team. So Newey will probably be an absentee from the Creamery City ranks.

## Few New Players

"There were only two young players developed last year," said Whitcroft. "They were Roberts of Ottawa and Haydon, the dashing wing man of the Wanderers, who was the real sensation of the league race. Consequently, if there is a professional league this winter, the magnates will be compelled to sign their last year's players, and this will place the pro in a position to demand their own price."

## Renfrew All the Way.

Fred thinks there will be nothing to the race but Renfrew. The wanderers "came back" last winter, but the team was probably their final effort. The majority of the champions' members have been in the game for a long while, and nearly the entire team will retire this winter. The Ottawa players are also beginning to qualify for the veteran class, and there will be many changes in their 1910-11 lineup. Cobalt and Halesbury will be dropped from the circuit, so there will be a good opening for another team in Montreal or a new team in Toronto. This latter city would be a winner if the oft-mooted artificial ice plant were only an established fact. Under present conditions, the uncertain weather in the Queen City makes the question of a professional franchise a doubt.

## Time to Change

If a team were down from Edmonton this winter, it should be run under a different system than on the last occasion, and all the players should be got together for at least a month's practice before starting out. The Wanderers' inclusion of Fred and Ross at the very last minute certainly did not add anything to Edmonton's strength last season.

## FIGHTERS ARE DEPARTING

Eddie Merino, who fought with Abe Attell in Calgary, has left for the States where he has arranged a bout with Colver, Young Maxwell has left Edmonton and is now on his way East.

SEPARATE SCHOOL  
GAMES YESTERDAY

Were Held at the Fair Grounds and the Kiddies Had a Fine Time

The annual sports of the Separate schools held at the fair grounds Tuesday afternoon were well attended, and successful from every point of view. The city provided a number of special cars which ran from Third street and Syndicate Avenue, and upwards of three hundred children were carried to the grounds which were placed at the disposal of the committee by the Exhibition association. Mr. J. J. Lebane of the Separate school staff was the official in charge and the judges were: H. M. Martin, J. T. J. Colleson, A. O'Donoghue, F. Barnes, J. H. Picard and J. Driscoll. A number of the fathers also attended and helped proceedings along.

A cup given by R. M. Martin to the boy securing the largest number of points in the afternoon was won by A. Larose. After the events were over lunch was served on the grounds. The management feel very grateful at their success and at the generosity displayed by all who contributed or otherwise seconded their efforts.

The following were the results of the different events:

Boys' race—50 yards, ten years and under, 1st V. Shimmers, 2nd E. Macdonald, 3rd C. Czeky.

Boys' race—75 yards, over ten years and under fifteen, 1st W. Dussault, 2nd A. Tardiff, 3rd A. Larose.

which which we were approaching. This switch has a dead end, and unless it is unlocked we would have run into the ground. We were then about a quarter of a mile from Kingsland. Suddenly all the stuff in the car began to pile up around me. I did not hear any crash or any noise. Things just seemed to rise up around me and I could not do anything to stop them. Then I lost consciousness. I guess, for the next thing I knew I was in the ground near the wreck. I don't remember of hearing any screams or any noise. The reason of this, I guess, was because I was somewhat out of my head. I walked back to the wreck and saw Motorman Charles Vandine on the north bound car staggering around there and I grabbed him and walked down the track with him a short distance. Then we went across the field and I don't remember anything more, until some one in the house took off my hat and collar and coat and put me to bed. That's all I know about the wreck.

**Villagers Paralyzed**  
Bluffton, Sept. 22.—The spot where the disaster took place is isolated. There was not a derrick in Kingsland and the people at the village seemed paralyzed by the immensity and horror of the disaster. They lacked a leader and until the relief cars from Fort Wayne and Bluffton arrived, little was done to take the dead and injured from the wreck. It was a long, hard task to recover the bodies from the debris. The dead and injured were laid in rows beside the track. Farmers first brought cloth to cover the dead and make bandages for the wounded. The bodies were horribly mangled. Legs and arms were severed, heads cut from bodies and stripes torn from the flesh of victims. The physicians had little assistance from the townspeople and farmers, any of the injured suffered the extremity of their hurts for two hours before they were relieved by the physicians. All the time pending the arrival of physicians the injured writhed and screamed in pain and the crowd

"Quite so," murmured the reporter. "There is a report going around town that Mr. MacKenzie and the German Development Syndicate have had a disagreement," was the reporter's next remark. "If you want to know any of those kind of details you will have to go to the head office in Toronto," said Mr. Hower. "I have heard nothing whatever about any trouble—All I got was a ten word telegram, and that is all I know about the matter." "I see," said the reporter. "on people had better be careful how they treat this matter," said Mr. Hower. "or you will be having Mr. MacKenzie after you again." The reporter gently but firmly pointed out that it was the idea of the Capital that the situation had been just the reverse, seeing that the president had stated that the plans for the main line of the C. N. R. had been approved by the railway commission when they had met. He also explained to Mr. Hower that the Capital had not published "all that rot" (as Mr. Hower describes it) about the German Emperor being a part owner in the German Development Syndicate, as Mr. Hower seemed to think they had. "Good-bye," said the reporter. "Good-bye," said Mr. Hower.

## OBJECTS TO PRESS MAKING COMMENTS

Commissioner Bouillon Thinks Papers Start Needless Agitations Over Some Things

### BONDING CONDUCTORS

Was Cause of Discussion—To Pay \$50 to Relatives of Dead Locomotive

Commissioner Bouillon at yesterday's meeting of the commissioners, took exception to the action of a certain section of the press in raising a counter agitation whenever any attempts were made by the city authorities to place any business on a sound basis, referring to the objection against the street car conductors having to deposit \$25 to be held by the city as a deposit for the tickets supplied to them. This money is taken from their wages during the first few weeks of their employment. The street railway also reported that certain of the men had objected to the city holding the money without interest. However, Commissioner Bouillon saw nothing to prevent interest being paid on the money, but he considered that the interests of the public should be considered.

"I want to give the men a square deal," he said, "but we don't wish to be imposed upon. Anyway I think the men should be glad to know that in case of sickness the city had \$25 in trust for them. The money, of course, is returnable to them at any time."

Commissioner Bouchart suggested that instead of the present system that a blanket bond in some company for \$40 be secured. It would be satisfactory as long as it was not required that names be mentioned. Commissioner Bouillon replied that it would give rise to unnecessary trouble as it might be necessary to sue the bond company. However, Commissioner Bouchart's suggestion will not go unheeded and inquiry will be made along that line.

The building inspector was instructed to submit sketches and make an estimate of the cost of carrying out the work of supporting the walls of the pump house.

Compensation to the amount of \$500 was decided on for the relatives of the late Robert A. Jones, who was killed some time ago while working on the wires at the corner of First and Peace Avenue.

The city solicitor stated that the city was liable for \$75 damages claimed by an accident in which a street car figured.

A statement of repairs required to be made to the streets will be communicated to the Bitulidite Paving Company, with a request to proceed with the work, charging the city according to the contract entered into with them.

It was decided that it would be impossible to grant the petition for a leap on the corner of Twenty-second street and Athabasca until such time as Twenty-second street is dedicated to the city.

The petition for electric light extension to Delton will be granted, provided the church recently erected in that district will accept the service.

To guard against the possibility of danger to persons driving along the hillside westward from Tenth street, fences will be erected at the end of each of the streets in that district.

On the recommendation of the city solicitor it was decided to recognize the claim of John Edwards for \$75 damages to a buggy smashed in an accident on the street railway on September 6th.

A request from the Society for Prevention of Cruelty to Animals for a subscription was referred to the council.

### PERT PARAGRAPHS.

**WHEN** nursing a grouch is a man's constant occupation he should be made wary by playing nurse to a strong, sturdy, self-willed baby.

Some men are civilized simply because their mothers spanked them sufficiently.

We always feel that friends who are really fond of us have good taste to recommend them.

Goodness itself can help a man who won't help himself.

Being young isn't the excuse and apology of an old fool.

Of course we all like an old fashioned room, but we don't care to have it get too old on our hands.

Quality is what most of us want, and that without all interfering with quantity.

**An Occasional Treasure.**  
The perfect wife is one who will not ask a fellow for a bill. Who takes what money he can spare And doesn't cause him any care, Who always keeps her temper sweet And fixes things that he can eat. One who is busy all the while And always meets him with a smile.

She's not extravagant in dress. She spends a trifle, sometimes less. She puts to shame the Paris trade. And if each year she cannot get A new one she will never fret.

Her temper is as smooth as ice. She offers only sage advice, And if it isn't taken why, She has no hammer in her kit. But just some words with which to knit. Nor does she hang across the gate And gossip till the hour is late.

She keeps her husband's underwear At all times in the best repair. She doesn't gad about and try To mash some smooth and wealthy guy. In short, she is a model and a credit to her home and race. But, oh, it must be a trial to live with her, you will agree!

**Information Wanted.**  
"Marriage may be defined as a compromise."

"Ho, horse!"  
"What?"  
"Plenty of horse sense."  
"Who does?"  
"The man who owns and runs an automobile."

**Easy Matter.**  
"How do you tell tainted money from the pure article?"  
"Quite easily."  
"Yes, but how?"  
"Ownership determines it."

**Honestly Won.**  
"Where did old George get the title of judge? Was he ever on the bench?"  
"Oh, yes; for years."  
"Whereabouts?"

"Do you?"  
"Yes."  
"Did he ever notice it?"

**Right, Oh!**  
"There is this about that man—"  
"Well?"  
"He need never fear being buried alive."

**Descriptive.**  
As to the language that we use, It doesn't matter bit. It's how we use it that counts. It's how we use it that counts.

"I presume so. Your hats usually are."

**Of Course.**  
"Why is a pretty girl pretty?"  
"It makes the others so 'sard."

## HOW WE WILL GREET MANUFACTURERS

The city of Edmonton is preparing a royal welcome for the members of the manufacturers' association who will arrive in the city on the morning of Tuesday, Sept. 27th.

The party is composed of about 200 prominent manufacturers from all parts of the Dominion who are touring the West with a view to gathering information as to the advantages of different cities for manufacturing centres.

The train will arrive in two sections, the first section when it arrives will proceed directly over the loop to Edmonton, the second section following forty minutes afterwards.

At the C.N.R. depot to meet them will be the members of the Edmonton Board of Trade. They will be conducted around the city in several special cars which will be placed at their disposal by the city.

They will be given luncheon at the different hotels around the city at one o'clock, and during the afternoon will take a trip in the portions of the city not seen while on the street cars and perhaps into the country in automobiles and carriages.

Immediately after dinner which will take place at 6.30, they will be tendered a civic reception in the separate school hall commencing at 7.30. The special committee of entertainment who have charge of the arrangements wish to thank the different citizens.

## The Season's Novelties in Fine Millinery

An unwritten law in correct styles for this Fall in hats that small hats have high crowns while the large hats have small; the backward slant to high crowns in turbans and small hats, and the tendency to place trimming so as to glide from the face at a sharp angle, are also marked features of this Fall Millinery. Every brim invariably dips at some one point. This is particularly noticeable in some of the larger hats with the poke effect, which shows a bewitchingly saucy bend in the front wide brim. Some of the late arrivals are worthy of individual description. This, of course, is impossible for want of space, but they await your inspection.

**THIS WEDDING WAS  
BRILLIANT SCENE**

Miss Claire Oliver Married to Mr. Allan Keefer at Ottawa Yesterday

**MANY COSTLY PRESENTS**

Earl and Countess Grey, Lord and Lady Lanesborough and Sir Wilfrid Sent Gifts

Ottawa, Ont., Sept. 21.—The smartest and most fashionable wedding of the season took place at St. Andrews Church at 2:30 yesterday afternoon, when Rev. Dr. Herridge united in marriage, Claire, third daughter of Hon. Frank Oliver, Minister of the Interior, and Mr. Allan Keefer, son of Mr. and Mrs. C. A. Keefer, a well known society man of the capital.

The wedding was largely attended, the church being crowded. The bride was given away by her father. The bridesmaids were Miss Ann Oliver, sister of the bride and Miss Rosie Chadwick. Mrs. Wm. Stephenson, of Norfolk, England, a daughter of Col. A. P. Sherwood, commissioner of Dominion Police, was matron of honor. The groom was assisted by his brother Mr. Thomas Keefer, and the ushers were Messrs. Sam McDougall, John Thompson,ameron Edwards, Herbert Chandlerlin, and Joe McDougall, all of Ottawa.

The invited guests included Sir Wilfrid Laurier, and all the members of the cabinet, and those present included all the ministers at present in the city. The out of town guests included Mrs. J. Anderson, a sister of the bride, Edmonton; Mrs. Van Horne, New York; Miss Delamere, and Miss Elsie Keefer, Toronto. The girls, which were numerous and costly, included a magnificent ruby and garnet bracelet from Their Excellencies, Earl and Countess Grey; a lace

and mother of pearl fan from Lord and Lady Ganesborough, a rich linen and lace table cover, the gift of Sir Wilfrid and Lady Laurier. After the wedding ceremony, a reception was held at the residence of the bride's parents on Somerset street. The young couple left on the afternoon train for New York.

After the honeymoon trip is over they will take up their residence in Ottawa.

**NOT A BOARDING HOUSE**

Some People Who Come to Immigration Hall Think It Is

"The Immigration Hall is not a free boarding house but a temporary stopping place for immigrants," was what Mr. Greaves of the Immigration Hall was called on to explain gently but firmly to a colored man who arrived with his family from Custer yesterday and wished to register at the hall. His wife was permitted to stay until accommodation could be found elsewhere but the officials refused to extend government hospitality to the head of the house.

This is a mistake commonly made by new arrivals and the authorities have difficulty in making it clear that the Immigration Hall is a hall for immigrants, that is, intending settlers.

Say you saw it in the Capital.

That's What Doctors Say—She Tries to Prove Otherwise—Judgment Reserved

Raymond, Sept. 20.—The evidence in the case of Mrs. Marietta E. Newcome, of Raymond, charged with the violation of sections 66, 67, 68 of the Medical Profession Act, by practising as a doctor for gain, by fraudulently causing the public to believe that she is qualified to practice medicine, and by using such initials as would lead people to believe that she is entitled to practice, was heard before Inspector West, J.P. E. C. McKenzie prosecuted on behalf of the Alberta College of Physicians and Surgeons, and W. C. Ives defended. The witnesses for the prosecution were Mr. and Mrs. H. Mitchell, Mrs. McGe, and Dr. Keiler, who were called to show that defendant had practised as a doctor, and Dr. J. D. Laflerty, of Calgary, registrar of the College of Physicians and Surgeons, who testified that defendant had applied for registration, but had been refused and that from the papers, diplomas and so forth that she had submitted, she would never be entitled to practise in Alberta. The defence called no witnesses but by cross-examination endeavored to show that defendant had not practised for gain, and had done nothing to lead people to believe she was a qualified practitioner.

The C. P. R. will handle a large amount of grain this year, said Mr. Peters of that company. The total amount he estimated for handling by his company is 100,000,000 bushels. One estimate, he said, had placed the figure at only 60,000,000, but the crops were good in Manitoba and Saskatchewan as well as Alberta.
